PRESS RELEASE

ENERGY SAVINGS ANNOUNCES SENIOR MANAGEMENT CHANGES

TORONTO, ONTARIO – March 3, 2008 --

Energy Savings, the Toronto-based marketer of long term, fixed price natural gas and electricity contracts, announced today the following senior management changes effective immediately:

Rebecca MacDonald, currently Executive Chair and former CEO, and Ken Hartwick C.A., current President, have been appointed Co-Chief Executives by the Board. Ms. MacDonald remains as Executive Chair and Hugh Segal remains as Lead Director of the Energy Savings Board.

Brennan Mulcahy has resigned as Chief Executive Officer and Director. Mr. Mulcahy will continue on an interim basis as a Consultant to Energy Savings to aid in the management transition process.

Rebecca MacDonald noted: "I want to sincerely thank Brennan Mulcahy for his service as CEO of Energy Savings. He was a founding partner of the company with direct responsibility for the expansion and management of our sales force. As CEO, he supervised a period of continued growth for the Fund as well as the development of innovative new products like our *Green Energy Option*."

"As President, Ken Hartwick has been responsible for all the non-sales operations of the Fund and they have never run better in the history of the Energy Savings. For two consecutive years, the Fund has fallen short of its customer aggregation targets. Steps have been taken to address this challenge and we will continue to improve our customer interaction, ensuring that sales practices are consistent with the highest standards. I am going to work in partnership with Ken to improve our sales results and we anticipate a smooth transition of the sales process to his complete control in the near future. I have tremendous confidence that Ken and his team will drive sales excellence similar to what has been realized in operations."

The Fund

Energy Savings' business involves the sale of natural gas and electricity to residential and commercial customers under long-term, fixed price contracts (price protected for electricity). Energy Savings offers natural gas in Manitoba, Quebec, British Columbia, Illinois and Indiana and both gas and electricity in Ontario, Alberta and New York as well as electricity only in Texas. By securing the price for natural gas or electricity under such contracts for a period of up to five years, Energy Savings' customers reduce or eliminate their exposure to changes in the price of these essential commodities.
