FEBRUARY DISTRIBUTION**

---

A distribution of \$0.10333/unit (\$1.24 annually) will be paid on February 28, 2009 to Unitholders of record at the close of business on February 15<sup>th</sup>, 2009. *The Fund*

Energy Savings’ business involves the sale of natural gas and/or electricity to residential and commercial customers under long-term fixed-price and price-protected contracts. By fixing the price of natural gas or electricity under its fixed-price or price-protected program contracts for a period of up to five years, Energy Savings’ customers offset their exposure to changes in the price of these essential commodities. Energy Savings, which commenced business in 1997, derives its margin or gross profit from the difference between the fixed price at which it is able to sell the commodities to its customers and the fixed price at which it purchases the associated volumes from its suppliers. A new partnership was entered into on July 18, 2008 which involves the marketing, leasing, sale and installation of tankless and high efficiency water heaters.
